WASHINGTON, May 7.

THE TAX BILL.

The new Tax Bill was reported from the Ways and Means and Committee this morning. It makes fifty-six printed pages more than the original bill did. The changes were, with one or two exceptions, indicated in last night's despatches. The tax on the private receipts of Treasury officers has been reduced from 5% per cent. the present rate, to three per cent.; a tax of one dollar levied on five per cent. debenture tax on tobacco made of hemp or cotton. The present tax on gold and silver plate is retained. The only new manufactures that pay taxes are cigarette-wicking and yarn for manufacturing purposes exclusively. The principal additions relate to the tax on whisky, beer, etc. The tax on whisky goes the committee mainly adopt the stringent bill drawn up by the Internal Revenue Commissioners. It is one dollar per gallon. The present rate of forty cents per gallon will be left as it is. The tax on beer will be about two dollars per barrel

RECESSION OF TENNESSEE.

The restoration of the State of Tennessee in her full privileges as a member of the Union constitutes the first "back to the Union" triumph of the year. It is the result of the feeling of the Unionists in that State that the people of the Union-loving section were entitled to vote upon the question whether they would be ruled by the Union party alike even to its errors, or by the Democratic party with its record of treason and rebellion. The election was held on the 28th of March, and the result was declared on the 30th. The Democratic party was completely overthrown, and the Union party triumphed by a majority of 25,000 votes. The Democratic party was completely overthrown, and the Union party triumphed by a majority of 25,000 votes. The Democratic party was completely overthrown, and the Union party triumphed by a majority of 25,000 votes.

PASSAGE OF THE REFORM BILL.

The Reform Bill passed the House of Commons on the 30th ult., by a majority of *five*, or to other words, it narrowly escaped defeat by the defection of the renegade Liberals. The efforts made for the defeat of the bill were on a formidable scale. The influence of the London *Times* was thrown against it, and all those who pride themselves upon aristocratic connections, or who have a horror of "mixing up with the people," were up in arms against it. Even the Queen's husband, Prince Albert, threw his influence against it, and it was believed that the Queen herself would also be found in opposition to the measure. Disraeli and Bulwer, given to the scribbling for the Tory papers, and the caricaturists of *Punch*, evidently thought they would lose caste if they did not make a stand against it. The Tory party, having again become a party of opposition, and the Queen Dowager, or Prussia, would almost cease to be justified in sending to the Arch-Duchess Sophia, of Austria, a forward telegram, announcing that it was all right, and that the German people are happy.

Between Florence, and Vienna, however, there does not seem to exist the same charming friendship. We hear of armaments on both sides, the Italian army being said to muster half a million strong, and nearly as many soldiers as the Hapsburg army, while Victor Emanuel's naval power is so far below Austria's, decidedly superior to that of Austria. Our Florence correspondent recently referred in emphatic language to the fact that Garibaldi is moving, and the latest accounts from Italy announce that the Garibaldians are moving on Rome, too, and it remains to be seen whether the influence of the Emperor to support Pius can or will prevail with the Italian people to prevent the Austrian and Pontifical oppressors of Venetia and Rome, and the Italian Bourbons. Possibly it may be so. It is not unlikely that the same perfidy which caused Bonaparte to betray the Hungarians in 1849, and the treaty of Villafranca may again prompt him to thwart the movement for the final overthrow of the Hapsburg and Papal power.

In the meantime, however, various indications point to behavior the Italians and their oppressors. The Barletta massacres, and the efforts making by Bourbons and Papists in other parts of Southern Italy, to subvert religious liberty, and to excite a conflict, open the eyes of the Italian people to the necessity of giving the death-blow to the Papal power, which is the great source of all these conditions.

The Fenians, some of whom constituted quite considerable amounts toward the National Italian Loan, and whose hatred of the Hapsburg usurpers is well known, cannot be much longer inactive, if by their course they give reason for voting the 17th of March a holiday, during which they may not in fact only 25,000, second Republic, one of the delegations waiting to be simplified. If Colorado is let in, Nebraska and Nevada, constituting, they admit, will vote with the Democratic party, and against the Copperheads, on the subject of reconstruction included.

The objection on the score of population is a sham. No Copperhead would raise it if Colorado were Democratic. At the present census, in 1870, Colorado will have a population of 500,000 inhabitants. The construction of the Pacific Railroad, and the new and unbounded prosperity following the gold discoveries, assure an abundant population. A large emigration to Colorado is taking place this season. The cost of living is materially reduced, while the means of making profitable. It has been the lowest expense of wagoning supplies

LOGAN vs. RUTHERDALL.

The Republicans of Perry County, Ill., held a county convention on the 30th ult. at Pinckneyville, and passed a series of resolutions on political questions, and among them one naming General John A. Logan as their candidate for the Congressional district in which Gen. Logan is, beyond all comparison, the favorite and first choice of the unconditional Union men of Egypt. His election would do honor to the district, and give the Egyptians a Representative in whom they could take pride. The district is Democratic by much more than the usual majority, and uncertain in his course. On several occasions he has voted with the Copperheads on important questions. He is the only Union member of the Illinois delegation whose Republicanism is not above suspicion. The votes can be counted on with absolute confidence on any party question that arises between the Republicans and Copperheads; and in the event of a close contest, which is highly uncertain. On the bill extending the legal voting privileges of the District of Columbia, he voted with the Copperheads. On the President's Bureau Bill he opposed the Republicans, and voted with the Copperheads. On the Civil Rights Bill, Copperhead files, of the Fulton Patriot, declared in the House, when Mr. Eggleston's name was called, that if he were present he would vote against the bill, which was practically understood to be the fact. Mr. K. knew that his district hated "Conservative" legislation of the people by his own feelings, hence his reckless course. Logan, on the contrary, is a Republican of Republicans, and stands in the Congressional district as the representative of the Union element in the State. He is the choice of the Republicans of Egypt, as a radical Republican, and they want a Representative who is the Republican party in every sense of the word. They want a man who will not be ashamed to vote in the House of Representatives with the Republicans, and who will not vote with the Copperheads

SARATOGA SPRING WATER, sold by all druggists.

S. T.—1860—X.

The amount of Plantation Bitters sold in one year is something startling. They would fill Broadway six feet deep with full bottles from the Battery to Harlem river—a solid mass of rich delicious bitters. Ask the druggist Drake palace of all Cuba's or his Eastern dealers with his cabalistic "S. T.—1860—X," and then get the old gravity legislators to pass a law "p. cevent the importation and use of nasty," which gives us a monopoly. We do not know how this is, but we do know the Plantation Bitters are, as no other article ever was. They are used by all classes of the community, and are death on Dyspepsia—certain. They get up a tonic appetizing dinner that will work a great system.

THE GREAT

INDIAN

CATARRH REMEDY

was obtained from the celebrated Indian Hakmadoe Doctress of the SENECA NATION, and is the result of her remarkable cures of Chronic Diseases, and particularly CATARRH.

Thousands are afflicted with this most annoying and distressing disease, which first comes with a cold in the head, and if not speedily cured, it will fasten itself upon the throat, causing Bronchitis, and in time consumption. Others are troubled with Sore Eyes, Scrofula, Ulcers, Humors, Boils, Tetter, Leprosy, Fits, St. Vitus' Dance, Neuralgia, Rheumatism, Dyspepsia, Liver Complaint, Kidney Disease, Female Weakness, Dropsy, Piles, Fistula, Ringworm, Salt Rheum, Erysipelas, Scald Head, Chronic Diarrhœa, Dysentery, Cholera Morbus, Nervousness, Sick Headache, Faintness, Sinking Spells, Loss of Appetite, Sleeplessness, Nervous Prostration, Nervous Debility, Female Complaints, Spinal Affection, and many other diseases, which, if not cured, will end in Consumption, Insanity, and Death.

The most experienced and progressive physicians have failed as yet to discover a permanent cure for the disease or cold in the head. Its first offensive symptoms have long baffled the skill of those so wel, versed in disease, but it has been overcome by a remedy the ingredients of which are from the forest, and whose prompt relief, and, if persistently used, a permanent cure, discovered by a child of Nature, who is ever true to her children when they need her assistance. Thousands of these afflicted will find this the medicine for which they have so long sought.

Dr. Hall relieves deafness, BRONCHITIS, NEURALGIA, HEADACHE, WEAK EYES, and by its use many will be saved from the Cry "CONSUMPTION."

Dr. Hall's Indian Catarrh Remedy is the use of one box, while the worst cases have been cured with three, costing the afflicted person less than FIVE DOLLARS. Put up in convenient form for carrying in the pocket.

WHOLESALE CONFLAGRATION.

A Sight of Terror—Horrible Scenes of the Fire Fiend—Great Destruction of Property.

THREE LARGE WAREHOUSES IN FLAMES—TWO COMPLETELY DESTROYED.

Another Price—Total Loss Nearly $250,000.

The fire fiend held high festival last evening, and once more hovering in close proximity of the crowded portions of the city, and in the immediate neighborhood of the business houses, he spread destruction and ruin all around him, and left behind him a scene of terror and desolation which will not soon be forgotten by the thousands who witnessed it.

The fire broke out between 7 and 8 o'clock, in the basement of the large three-story and attic brick building on the north side of Lake street, between Franklin and Market, and owned by Mr. Thomas Hoyne. The flames spread with fearful rapidity, and the whole of the upper stories were in a blaze before the fire was discovered. The fire then spread to the adjoining building on the east, owned by Mr. Hoyne, and occupied by Messrs. Hoyne, Leland & Co., as a wholesale dry goods store, and from there to the large five-story building on the corner of Lake and Franklin streets
